Notes to Condensed Interim Consolidated Financial Statements

June 30, 2023 (Expressed in thousands of US dollars - unaudited)

1. GENERAL INFORMATION

Aya Gold & Silver Inc. (the "Corporation or "Aya") is a Canadian based precious metals mining corporation which focuses on the exploration, development, production and acquisition of precious metals mining projects. The Corporation is concentrated on producing silver and exploration activities at its flagship project, the Zgounder property through its 100% ownership of Zgounder Millennium Silver Mine S.A ("ZMSM"). The Corporation also owns 85% of the Boumadine polymetallic project and is the sole owner of the permits related to the Amizmiz, Azegour, Zgounder Regional and Imiter bis properties. On June 28, 2023, the Corporation acquired the Tirzzit Project ("Tirzzit"), a collection of seven permits located 25 kilometers from the Zgounder property. All of these properties are located in the Kingdom of Morocco. The Corporation also owns through Algold Resources Ltd. ("Algold"), 75% of the Tijirit project located in Mauritania. Aya's registered office is located at 1320 boulevard Graham, suite 132, Mont-Royal, Quebec, Canada, H3P 3C8.

Aya is incorporated under the Canada Business Corporations Act; its financial year-end is December 31 and trades on the Toronto Stock Exchange under the symbol "AYA" and on the OTCQX under the symbol "AYASF". All projects other than the Zgounder project are at the exploration and evaluation stage.

2. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

The condensed interim consolidated financial statements of the Corporation for the three and six-month periods ended June 30, 2023 and 2022 have been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting", as issued by the International Accounting Standards Board ("IASB"). IFRS includes IFRSs, International Accounting Standards ("IAS"), and interpretations issued by the IFRS Interpretations Committee ("IFRIC"). These condensed interim consolidated financial statements do not include all the information required for full annual financial statements and should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2022, which have been prepared in accordance with IFRS.

The Board of directors approved and authorized for issue these condensed interim consolidated financial statements, on August 10, 2023.

Basis of measurement

The condensed interim consolidated financial statements have been prepared on a historical cost basis, except for:

- (i) Option contracts, which are accounted for at fair value;
- (ii) Share-based payment arrangements, which are measured at fair value on grant date;
- (iii) Asset retirement obligations, which are measured at the discounted estimated cost of future remediation;
- (iv) Lease liabilities, which are initially measured at the present value of minimum lease payments; and
- (v) Non-controlling interest which is initially measured at the proportionate share of the acquiree's identifiable net assets as at the date of acquisition.

Significant accounting judgments and estimates

The preparation of these condensed interim consolidated financial statements requires management to make judgements and estimates that affect the application of accounting policies and reported amounts of assets and liabilities and disclosures of contingent assets and contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. The determination of estimates requires the exercise of judgement based on various assumptions and other factors such as historical experience and current and expected economic conditions. Actual results could differ from those estimates. Estimates and underlying assumptions are

2. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future period affected. In preparing these condensed interim consolidated financial statements, the significant judgments made by management applying the Corporation's accounting policies and the key sources of estimation uncertainty were the same as those described in the Corporation's audited consolidated financial statements for the year ended December 31, 2022.

Significant accounting policies

These condensed interim consolidated financial statements have been prepared following the same accounting policies and methods of computation as the audited annual consolidated financial statements for the year ended December 31, 2022 except for the following policy that has been adopted in the three and six-month period ended June 30, 2023:

Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction, or production of a qualifying asset are capitalized as part of the cost of that asset until the asset is substantially complete and ready for its intended use. All other borrowing costs are expensed as incurred.

Consolidation, functional and presentation currency

These condensed interim consolidated financial statements include the accounts of Aya and its subsidiaries. Subsidiaries are entities over which the Corporation has control. The Corporation controls an entity when it has power over the entity, when it is exposed to, or has rights to, variable returns from its involvement with the entity and can affect those returns. These condensed interim consolidated financial statements include the accounts of Aya, and its subsidiaries as follows:

Subsidiary	Registered	Ownership, voting Right	Principal activity	Functional Currency
Aya Gold & Silver Morocco S.A. ("AGSM")	Morocco	100%	Exploration	Moroccan dirham
Zgounder Millennium Silver Mining S.A. ("ZMSM")	Morocco	100%	Production	Moroccan dirham
Boumadine Global Mining S.A. ("BGM")	Morocco	85%	Exploration	Moroccan dirham
Atlas Gold & Silver S.A.R.L. ("AGS")	Morocco	100%	Exploration	Moroccan dirham
Kanosak (Barbados) Limited ("KANOSAK")	Barbados	100%	Exploration	Canadian dollar
Algold Resources Ltd. ("Algold")	Canada	100%	Exploration	Canadian dollar
Algold Mauritania SARL ("ALGOLD SARL")	Mauritania	100%	Exploration	Mauritanian Ouguiya

Morocco Exploration and Development Inc. ("MED")	Cayman Islands	100%	Exploration	United States dollar
Precious Metal Finance and Services Inc. ("PMFS")	Cayman Islands	100%	Services	United States dollar

Subsidiaries are fully consolidated from the date on which control is transferred to Aya and are de-consolidated from the date that control ceases. All intercompany transactions, balances, income and expenses are eliminated upon consolidation. Where the Corporation's interest in a subsidiary is less than 100%, the Corporation recognizes non-controlling interests. The functional currency of Aya is the Canadian dollar. The functional currency of the Corporation and its subsidiaries has remained unchanged during the reporting period. The Corporation's reporting currency is the US dollar.

Acquisition of the Tirzzit

On June 28, 2023, the Corporation acquired Tirzzit, a collection of seven permits located 25 kilometers from the Zgounder Silver Mine in the Kingdom of Morocco. As consideration for the assets acquired, the Corporation issued 622,728 of its shares at C\$8.36 (having a value of \$3,936) and paid \$800 in cash for a total consideration of \$4.7 million.

Management concluded that Tirzzit does not meet the definition of a business, and consequently the transaction was accounted for as an asset acquisition. The assets acquired include seven permits within a property of 67.7 square kilometers ("km"), comprising five exploration permits and two mining licenses, one of which hosts a high-grade historical copper mine.

The transaction remains subject to administrative procedures in the Kingdom of Morocco.

Tijirit project

The Corporation completed the fieldwork necessary for the feasibility study in Q2-2023 and is completing the feasibility study. The Tijirit permit is valid for a period of 24 months starting in October 12, 2022 following the restart of fieldwork at the site. The following milestones must be reached during that period:

- (i) Feasibility study needs to be completed within a period of 14 months from the renewal date;
- (ii) Begin the commissioning of a production facility at 24 months of the renewal date.

6. DEBT

On January 19, 2023, the Corporation entered into a credit agreement for a secured project financing facility with the European Bank for Reconstruction and Development ("EBRD") (the "Facility") to provide financing for the construction of the 2,000 tonne per day process plant (see note 4) for the Zgounder Silver Mine of up to \$100,000.

The Facility consists of a \$92,000 loan provided by the EBRD and an \$8,000 tranche (pari-passu with the EBRD) by the Climate Investment Funds ("CTF"), managed by the EBRD. Amounts borrowed under the Facility incur interest at a rate of SOFR plus 5%. Interest is paid twice every year on July 19 and January 19.

Interest rate on the CTF \$8,000 tranche is equal to the all-in rate at the time of signing reduced following achievement of three milestones:

- Milestone 1: Task Force on Climate-related Financial Disclosures ("TCFD") report disclosed by end of 2023 will result in a 25% rate reduction;
- Milestone 2: Completion of certain capital expenditure set out in the TCFD report and in the development plan by end of 2024 will result in a 50% rate reduction;
- Milestone 3: Reaching "advanced" maturity on the TCFD's Climate Governance and Strategy recommendation will result in reduction of interest to an all-in rate of 1.00%.

The funds are available for a period of 24 months and a commitment fee representing 30% of the 5% margin for undrawn amounts during the availability period must be paid to EBRD. During the three and six-month period ended June 30, 2023 a commitment fee of \$379 and \$675 respectively was recorded under property plant and equipment as borrowing costs.

During the three and six-month period ended June 30, 2023, the Corporation paid \$750 and \$2,500 respectively in underwriting and front-end commission and \$453 in loan related fees. These fees were recorded as deferred financing fees.

As at June 30, 2023, no amount was drawn under the Facility.

11. SEGMENTED INFORMATION

All of the Corporation's operations are within the mining industry, and its major products are precious metals ingots and concentrate which are refined or smelted into pure silver and sold to global metal brokers. A reporting segment is defined as a component of the Corporation that:

- engages in business activities from which it may earn revenues and incur expenses;
- whose operating results are reviewed regularly by the entity's executive management; and
- for which discrete financial information is available.

For the three and six-month period ended June 30, 2023, the Corporation's reporting segments include the production segment, with its Zgounder silver project in Morocco, as a significant reporting segment. All other properties are segmented in the "non-producing properties" category (i.e. referred to as Exploration, evaluation and development segment) for the period ended June 30, 2023 and December 31, 2022. The Corporate segment is a non-operating segment comprising corporate and administrative functions that provide support and governance to the Corporation's production and exploration, evaluation and development segments and consists primarily of the Corporation's corporate assets including cash and cash equivalents, intercompany eliminations, and corporate expenses which are not allocated to operating segments.

Management evaluates segment performance based on mine operating earnings. Therefore, other income and expense items are not allocated to the segments. Significant information relating to the Corporation's reportable operating segments is summarized in the tables below.

15. CAPITAL MANAGEMENT

The Corporation defines capital as equity. When managing capital, the Corporation's objectives are to:

- Ensure sufficient liquidity to pursue its strategy of organic growth combined with strategic acquisitions;
- Ensure the externally imposed capital requirements relating to debt obligations are being met;
- Increase the value of the Corporation's assets; and
- Achieve optimal returns to shareholders.

The Corporation will achieve these objectives by effectively operating its assets efficiently, identifying the right exploration and evaluation projects, adding value to these projects and ultimately taking them to production or obtaining sufficient proceeds from their disposal. Management adjusts the capital structure as necessary to support the operation, acquisition, exploration, evaluation and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Corporation's management team to sustain the future development of the business. As at June 30, 2023, managed capital is \$203,864 (\$125,722 as at December 31, 2022) representing total equity before non-controlling interest. Management reviews its capital management approach on an ongoing basis and believes that this approach is appropriate given the relative size of the Corporation. There were no changes in the Corporation's approach to capital management during the three and six-month period ended June 30, 2023.

16. FINANCIAL RISK MANAGEMENT

The Corporation is exposed to various financial risks resulting from both its operations and its investment activities. There were no changes to the financial objectives, policies and processes during the three and six-month periods ended June 30, 2023 and 2022. The Corporation's main financial risk exposure and its financial risk management policies are as follows:

Credit risk

Credit risk refers to the risk of an unexpected loss if a party to its financial instrument fails to meet its contractual obligations. The Corporation's financial assets exposed to credit risk are primarily composed of cash and cash equivalents, accounts receivable, options contracts, and long-term restricted cash. The Corporation's cash is mostly held with reputable Canadian or Moroccan banks.

Credit risk arises from the possibility that the clients which the Corporation sells its product to may experience financial difficulties and be unable to fulfil their obligations. The Corporation requires that it is paid the majority of what it is owed

Aya Gold & Silver Inc.

Notes to Condensed Interim Consolidated Financial Statements

16. FINANCIAL RISK MANAGEMENT (continued)

on transfer of property and deals with creditworthy counterparties to mitigate the risk of financial loss from default. The Corporation monitors the credit risk of customers through credit rating reviews and constant communication with customers. The Corporation establishes an allowance for doubtful accounts taking into account the credit risk of specific customers, historical trends and other information. As at June 30, 2023 and December 31, 2022, the Corporation sells its ingots and silver concentrated ore to a limited number of large customers and has never experienced a credit loss. Consequently, credit risk is considered to be limited. In management's opinion, the maximum credit risk exposure for all of the Corporation's current financial assets is the carrying value of those assets.

Commodity price risk

The Corporation's profitability is exposed to commercial risks notably those linked to the price of silver. The Corporation does not have financial instruments to hedge exposures to silver price fluctuations.

Liquidity risk

Liquidity risk refers to the risk that the Corporation will not be able to meet its financial obligations as they fall due. The Corporation's liquidity and operating results may be adversely affected if the Corporation's access to the capital market is hindered, whether as a result of a downturn in stock market conditions generally or related to matters specific to the Corporation. Over the years, the Corporation generates cash flow from its financing activities and from the sales realized at the Zgounder mine.

The following are the contractual maturities of financial liabilities and other liabilities, including interest where applicable as at June 30, 2023:

	Carrying Amount	Contractual cash flows	0-12 months	12-24 months	More than 24 months

Lease liabilities	287	307	171	62	74
	23,893	23,913	23,777	62	74

Currency risk

In the normal course of operations, the Corporation is exposed to currency risk due to business transactions in foreign countries denominated in a currency other than the functional currency of each entity in the group, being the Canadian dollar for all the entities within the consolidated group except for AGSM, ZMSM, BGM and AGS, for which the functional currency is the Moroccan dirham, and for TIREX and ALGOLD S.A.R.L., for which the functional currency is the Mauritanian Ouguiya. Transactions related to the Corporation's exploration and evaluation activities are mainly denominated in Moroccan dirhams and Mauritanian ouguiyas. Foreign currency denominated financial assets and liabilities which expose the Corporation to currency risk are presented below.

16. FINANCIAL RISK MANAGEMENT (continued)

The Corporation enters into put option contracts to mitigate the risk of fluctuations in the exchange rate of its holdings of US dollars. Changes in the fair value of the contracts and the corresponding gains or losses are recorded quarterly and are included in the fair value adjustment on option contracts on the consolidated statement of comprehensive income (loss). The Corporation's management strategy is to reduce the risk of fluctuations associated with foreign exchange rate changes. The foreign currency option contracts are held to maturity and are either exercised for a net profit or loss; or expire at no obligation to the Corporation.

The fair value of option contracts, which represents the amount that would be received/(paid) by the Corporation if the contracts were terminated at June 30, 2023 was \$43 (\$581 as at December 31, 2022). As at June 30, 2023, the Corporation had cash collateral balances related to option contracts being held of \$2,541 (\$2,489 as at December 31, 2022). They are reflected as part of restricted cash in escrow in the condensed interim consolidated statement of financial position.

Balances are dominated in US dollars, the presentation currency of the Corporation:

June 30, 2023	USD	EUR	MAD	Total
	\$	\$		\$
Cash and cash equivalents	31,373	289	-	31,662

Fair value of financial instruments

Current financial instruments that are not measured at fair value are represented by cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities and balance of purchase price acquisition of the Boumadine property. Their carrying values are considered to be a reasonable approximation of their fair value because of their short-term maturity and/or of the contractual terms of these instruments. Fair value of restricted cash is very similar to the amortized cost due to the nature of the underlying asset.

Foreign currency options contracts

Foreign currency options contracts are recognized on the Corporation's consolidated statement of financial position when the Corporation becomes party to the contractual provisions of the instrument. The instrument is derecognized from the consolidated statement of financial position when the contractual rights or obligations arising from that instrument expire or are extinguished. Forward currency contracts are recognized at fair value through profit and loss. The variation of fair value is in the consolidated statement of comprehensive income (loss). The premium at inception is accounted for against the fair value of the instrument at each reporting date.

Fair value hierarchy

The following table classifies financial assets and liabilities that are recognized on the consolidated statement of financial position at fair value in a hierarchy that is based on significance of the inputs used in making the measurements. The levels in the hierarchy are:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the asset or liability that are not based on observable market data.

17. FINANCIAL INSTRUMENTS (continued)

As at June 30, 2023, the following represents the classification of fair value instruments:

	June 30, 2023			
	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Option contracts	-	43	-	43

	December 31, 2022			
	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Option contracts	-	581	-	581

The Corporation's foreign currency option contracts are not traded in active markets. The fair value of these instruments has been determined using observable forward exchange rates. The effects of non-observable inputs are not significant for foreign contract positions.

20. RELATED PARTY TRANSACTIONS (continued)

Net Profit Interest

In 2013, the Corporation agreed to a net-profit interest ("NPI"), agreement with Global Works, Assistance and Trading S.A.R.L. ("Glowat"), a related party to the previous CEO and director of the Corporation, equal to 5% of the gross revenues generated from the operations of the Zgounder Silver Mine, less mining and milling costs. On June 28, 2023, the Corporation paid US\$1.6 million that was due to Glowat under the NPI and the parties terminated the NPI agreement. As part of the settlement, all court procedures in Canada and Morocco between the Corporation, the former CEO and Glowat have been withdrawn.
