

Unlocking silver growth in Morocco

INVESTOR PRESENTATION

OCTOBER 2025

TSX: **AYA** | OTCQX: **AYASF**

Forward-Looking Statements

The Zgounder Expansion Feasibility Study ("FS") is based on a technical report entitled "NI43-101 TECHNICAL REPORT – FEASIBILITY STUDY ZGOUNDER EXPANSION PROJECT", originally dated March 31, 2022, and amended on June 16, 2022 with an effective date of December 13, 2021 (the "Zgounder Report") which was prepared under the supervision of Daniel M. Gagnon, DRA, with the participation of William Stone, Antoine Yassa, Jarita Barry, Fred Brown, Eugene Puritch, Daniel Morrison, André-François Gravel, Claude Bisaillon, Julie Gravel, Kathy Kalenchuk, Hugo Della Sbarba, Philippe Rio Roberge, Richard Barbeau & Stephen Coates all "qualified persons" for the purpose of the Zgounder Report. Scientific and technical information contained in this presentation has been reviewed and approved David Lalonde, B.Sc, Aya's Vice President of Exploration and a QP as defined under NI 43-101. Mineral Resources are reported exclusive of Mineral Reserves and as such the Mineral Resources do not have demonstrated economic viability. Numbers may not add or multiply accurately due to rounding. Inferred Mineral Resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as mineral reserves, and there is therefore no certainty that the conclusions of the initial exploration drilling results will be realized. Additionally, where the Company discusses exploration/expansion potential, any potential quantity and grade is conceptual in nature and there has been insufficient exploration to define a Mineral Resource and it is uncertain if further exploration will result in the target being delineated as a Mineral Resource. Varying cut-off grades have been used depending on the mine, methods of extraction and type of ore contained in the reserves. Mineral resource metal grades and material densities have been estimated using industry-standard methods appropriate for each mineral project with support of various commercially available mining software packages. Additional details regarding Mineral Reserve and Mineral Resource estimation, classification, reporting parameters, key assumptions and associated risks for each of the Company's mineral properties are provided in the respective NI 43-101 Technical Reports which are available at www.sedar.com and the Company's website at www.ayagoldsilver.com.

Certain statements and information contained in this presentation are "forward-looking information" within the meaning of applicable securities laws. Such statements involve known and unknown risks, uncertainties and assumptions and accordingly actual results and events may differ materially from those implied or expressed therein. This includes statements such as "expected", "anticipated", "growth", "demonstrate", "high-potential", "developing", "lower", "prospective", "adding", "continuous", "will", "timeline", "favorable", "opportunities", "backstopped", "expand", "extend", "expected", "continue", "potential", "deliver", "complete", "achieve", "growing", "increasing", as well as statements by the Corporation concerning

expected timelines, including the expected timeline for the Corporation to produce new resources estimates, and exploration results, including deposit size, quantities, grades and contained metals, which are generally made on the basis of estimations and extrapolations from a limited number of drill holes and assays. These estimations and extrapolations are subject to uncertainties, which include but are not limited to uncertainty in connection with evaluating a deposit until the deposit has been extensively drilled on closely spaced centers. Should one or more of these underlying estimations or extrapolations prove incorrect, actual results may vary materially from those described in forward-looking statements.

Forward-looking statements contained herein also include the Corporation's plans for its mineral properties, which involve known and unknown risks, uncertainties and other factors which may cause the Corporation's actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking information. Forward-looking information is subject to a variety of risks and uncertainties, which could cause actual events or results to differ from those reflected in the forward-looking information, including, without limitation, the ability of the Corporation to continue to access capital markets for the funding necessary to acquire and maintain exploration properties and to carry out its desired exploration programs; difficulties in executing exploration programs according to the Corporation's proposed schedules and within its cost estimates, whether due to weather conditions in the areas where it operates, increasingly stringent environmental regulations and other permitting restrictions, or the availability of essential supplies and services; and factors beyond the capacity of the Corporation to anticipate and control, such as the marketability of minerals, government regulations relating to health, safety and the environment, and the scale and scope of royalties and taxes on production and other risks described in the Corporation's documents filed with Canadian securities regulatory authorities. You can find further information with respect to these and other risks in the Corporation's 2024 Q3 MD&A, and other filings made with Canadian securities regulatory authorities and available at www.sedar.com. Should one or more of these risks or uncertainties materialize, actual results may vary materially from those described in forward-looking statements.

Accordingly, readers are advised and cautioned not to place undue reliance on forward-looking information. Except as required under applicable securities legislation, the Corporation undertakes no obligation to publicly update or revise forward-looking information, whether as a result of new information, future events or otherwise.

AYA

Aya Overview

Zgounder Silver Mine

Exploration

Aya / Proven Management Team

Benoit La Salle, FCPA, MBA
President & CEO

Benoit is a mining veteran with 30 years of experience as CEO of Africa-focused mining companies. Benoit founded, developed and grew SEMAFO into a 250,000 oz gold producer in West Africa, delivering more than a billion dollars of value to shareholders. Benoit holds a BCom from McGill University and an MBA from IMEDE, Switzerland.

Mustapha Elouafi
President-Managing Director, Morocco

Mustapha is an established mining executive with over 30 years in mining and senior management in Morocco and MENA. Previously, he was Managing Director of OCP S.A., the world's largest producer of phosphate and phosphate-based products, and served as president of affiliates of OCP Group. A graduate of the Mohammedia School of Engineering in Morocco, Mr. Elouafi holds an Executive MBA from École des Ponts Business School in Paris.

Ugo Landry-Tolszczuk
Chief Financial Officer

Ugo's involvement with Africa spans 12 years of his 15-year professional experience and includes positions as President and COO of TSXV-listed SRG Mining and director of operations for Windiga Energy. A CFA charter holder, Ugo holds a bachelor's degree of applied science in computer engineering, management science option, from the University of Waterloo.

Elias Elias
Chief Legal and Sustainability Officer

Elias brings with him 18 years of legal experience, mainly focused on advising West African-focused mining and energy companies such as SRG Mining, Sama Resources, Windiga Energy and SEMAFO. Elias holds a civil law degree (summa cum laude), a common law degree (cum laude) from the University of Ottawa and has been a member of the Barreau du Québec since 2007.

David Lalonde
Vice-President Exploration & Qualified Person

David is a geologist with 24 years of experience in progressively senior exploration roles. His expertise has been acquired in Canada and internationally (Russia, West Africa, and Oman), primarily in precious metals exploration with SEMAFO Inc. and Kinross Gold. Prior to joining Aya, David was head of exploration for MDO, Oman's government-backed mining company. David earned his B.Sc. in geology at Université du Québec à Montréal.

Alex Ball
Vice-President, Corporate Development & Investor Relations

During his more than 15-year corporate finance career, Alex managed \$5 billion in debt, equity financings and M&A transactions in mining with UBS Canada, CIBC World Markets, and BMO Capital Markets. Previously, he was Executive Vice-President, Finance & Corporate Development at Algold Resources. Alex has an MBA majoring in finance from University of Toronto's Rotman School of Management and a BA in Economics from McGill University.

Meryem Baroudi
Dir, HR & General Affairs

Meryem Baroudi has over 20 years' experience in human resources management in the mining industry. Prior to Aya, Meryem worked as an independent HR expert consultant for large companies in different sectors. Before this, she held different HR mgmt. positions at OCP S.A., the world's largest producer of phosphate and phosphate-based products, where she began her career as an engineer in operations in 1997. Meryem earned a degree in civil engineering at "Ecole Hassania des Travaux Publics" in Morocco.

Raphaël Beaudoin
Vice-President, Operations

Raphaël has 15 years of mineral processing experience across various operations and projects in West Africa and Canada. Prior to Aya, Raphaël was Vice-President, Operations, Metallurgy and Process Design at SRG Mining and director of operations at Sama Resources, two resource companies focused on West African projects. Before this, he held positions of increasing responsibility at Canadian Royalties Inc. Raphaël earned a degree in materials engineering at McGill University.

Aya / Experienced Board of Directors

Benoit La Salle, FCPA, MBA
President & CEO, Director

Benoit has over 25 years of experience as a corporate executive in the mining industry. Benoit founded, developed and led SEMAFO into a 250,000 oz gold producer in West Africa, delivering more than a billion dollars of value to shareholders. Benoit holds a BCom from McGill University and an MBA from IMEDE, Switzerland.

Robert Taub
Chair

Robert is an entrepreneur in life sciences and investor in several pharmaceutical and medical device companies. Mr. Taub is currently chairman of a NASDAQ-listed company. Robert holds a BA Languages from the University of Antwerp, Belgium and an MBA from INSEAD, France.

Annie Torkia Lagacé
Director

Annie brings over 20 years of legal and financial experience, mainly within the mining and aerospace sectors. Until recently, Ms. Torkia Lagacé held the position of Senior-Vice President, Legal Affairs, General Counsel and Corporate Secretary of Bombardier Inc and served on its ESG steering committee. She holds a civil law degree and a common law degree from University of Ottawa as well as an EMBA from the Schulich School of Business in Toronto and the Kellogg School of Management in Chicago.

Yves Grou, CPA, CA
Director

A CPA CA, Yves holds a degree in Commerce (BCom) from McGill University. He is a member of the Québec Institute of Chartered Professional Accountants. Between 1980 and 2004, he was co-founder and partner of Grou La Salle & Associates. Mr. Grou coordinated and led reverse take-over processes related to several public companies.

Dr. Jürgen Hambrecht
Lead Director

Dr. Jürgen Hambrecht served BASF in various capacities around the world for more than 40 years, lastly as CEO and Chairman of the Supervisory Board. He has served on a multitude of board including Daimler Truck AG, Mercedes Benz AG, Bosch, Lufthansa AG, and Fuchs SE. Currently, he is Chairman of Trumpf SE. Dr. Hambrecht earned his doctorate in Chemistry in 1975 from the University of Tübingen, Germany.

Ghislane Guedira Bennouna
Director

Ghislane is a seasoned finance executive with 30+ years of expertise in mining, real estate and consultancy. Her career includes 11+ years at OCP Group, a global leader in the phosphate and phosphate derivatives industry, where she was CFO for 7 years and advisor to the chairman and CEO for 4 years. Ms. Guedira is founder and MD of Amplitude Conseil and also serves as chair of the audit committees for CDG Capital and RISMA. She holds a MBA from ESCP business school in Paris.

Eloïse Martin
Director

Eloïse has over 10 years of experience in project finance, structured finance, and capital structuring advisory with a focus on the energy and natural resources sector. Currently, she is self-employed. Previously, she was an Executive Director with HCF International Advisers. Ms. Martin holds an MBA from ESSEC Graduate School of Management, Paris, a Master of International Business (Honours) from L'Institut d'Etudes Politiques (Paris), and a Master of Humanities from Sorbonne University.

John Burzynski
Director

Mr. Burzynski brings over 30 years of mining industry experience and was a founding member of Osisko Mining Corporation, where he served as President and CEO. He was instrumental in the development, construction, and successful operation of the Canadian Malartic Mine, one of Canada's largest gold operations. Most recently, he led Osisko through the Windfall Gold Project's development, ultimately resulting in the C\$1.2 billion acquisition of the company by Gold Fields in early 2024.

2. NI 43-101 Technical Report and Updated Mineral Resource Estimate of the Zgounder Silver Project, Kingdom of Morocco (Dec 13, 2021).

3. See news release dated February 24, 2025 announcing Boumadine’s updated mineral resource estimate.

4. Refer to Aya Gold & Silver’s September 12, 2024 press release.

Industry-Low Discovery Costs

- Ag resource as a unit of total shares outstanding up **>8x** to **554Moz** AgEq since Q2-2020
- Industry-low discovery cost of **\$0.10** and industry-high AgEq per share growth

In Moz AgEq

- M&I and Reserves (Zgounder + Boumadine)
- Inferred (Zgounder + Boumadine)

*NI 43-101 Technical Report and Updated Mineral Resource Estimate of the Zgounder Silver Project, Kingdom of Morocco (December 13, 2021)

**See news release dated April 16, 2024, announcing updated NI 43-101 resource for Boumadine.

***See news release dated February 24, 2025 announcing updated NI 43-101 MRE for Boumadine.

Mineral resources are not mineral reserves and the economic viability of resources that are not mineral reserves has not been demonstrated. It cannot be assumed that all or any part of an inferred mineral resource will ever be upgraded to an indicated or measured mineral resource category.

Note 76.9M, 96.7M, 104.9M, and 130M total shares outstanding in Q1-2018, Q2-2021, Q1-2022, and Q2-2024, respectively Only Zgounder resources and reserves are accounted for between Q1-2018 and Q2-2022. Q2 2024 includes resources from Zgounder and Boumadine and reserves from Zgounder.

Zgounder / Top Silver Intercepts Globally

Zgounder reported 3 out of the top 10 and 15 out of the top 50 global silver intersections of 2020-2024 YTD¹

- 21.6m @ 3,956 g/t Ag
- 14.4m @ 4,101 g/t Ag
- 9.6m @ 5,691 g/t Ag
- 14.4m @ 3,043 g/t Ag
- 27.0m @ 1,611 g/t Ag

Top 50 global primary silver intercepts 2020-2024 YTD, ranked by Ag grade-thickness¹

1. Source: Desjardins Capital Markets, S&P Global Market Intelligence

Solid operational standard reached in 2021 by:

- Switch to cut-and-fill mining method
- Implementation of operating best practices
- Capital infrastructure & equipment upgrades
- Recruitment of key personnel

Pre-expansion mechanization began in 2022:

- Commissioning of new equipment, such as jumbos, dumpers, scoops, crane & scissor lift platforms
- Reconciliation of monthly block models with back feed

Pre-expansion improvements:

- Addition of cone crusher increased throughput; 700tpd+ nameplate capacity
- Refurbishment of electrical components

Silver Reserves

- The reserves include drilling carried out between January and September 2021
- Reserves include **29%** open-pit and **71%** underground ore
- **Well-positioned to extend the 11-year LOM**, given the 71% resource-to-reserve conversion ratio and that the deposit is open at depth to the granite

LOM Production Profile*

* Based on projections of 2022 Zgounder Expansion feasibility study. Projections include commencement of construction in Q2-2022. 2024 production has been adjusted to 2024 guidance.

Zgounder Silver Mine / Q2-2025 → Solid Operational Execution

Ore processed increased **>3-Fold YoY** and **+10% QoQ** driven by launch of large-scale commercial production at YE 2024

Recovery improved steadily, averaging **86.5%**
Improved performance driven by **oxygen plant** repairs

Exceeding industry standards

→ **Operational KPI's sustainable into H2**

**Early
Ramp-Up
Execution**

**Focused and
On Track**

Zgounder Silver Mine / Q2-2025 Mining Activities

ORE MINED (kt)

AVERAGE SILVER GRADE MINED (g/t Ag)

Ramp-up in line with plan

- Mined ore + 112% YoY
- Mined ore + 24% QoQ

Ramp-up impacting grade

- Not a metallurgical issue
- Addressing issues impacting grade
 - Dilution
 - Improving mining selectivity and operational control
 - Monitoring of blast movement in the open pit
 - Stabilizing mining rate

AVG. NET REALIZED SILVER PRICE PER OZ AND CASH COST* PER OZ

REVENUES (\$M)

Record Revenues

+182% YoY

+ 14% QoQ

Driven by ramp-up and higher silver price/oz

NET INCOME (\$M)

Positive Net Income

even excluding the one-time gain and impairment recovery from the Mx2 transaction of \$5.8M

*See "Non-GAAP Measures" section of Aya Gold & Silver's MD&A for the three-months ended June 30, 2025

Strong Balance Sheet / Provides Flexibility

Key Highlights	Q2-2025
Cash from operations	8
Capex & exploration	13
Cash position	114
Undrawn facility*	25

Q2-2025 Highlights

- Stronger **cash from operations** +41% vs YoY
- **Capex & exploration activities** -61% vs YoY
- Proceeds from **equity raise** providing flexibility to advance our development-stage asset Boumadine, a cornerstone of our long-term growth strategy

Recent development (August 5)

- \$8 million payment in compensation for EPC contractual breaches

* US\$25 million credit facility with the European Bank for Reconstruction and Development ("EBRD") to support the advancement of development work at our Boumadine polymetallic project located in the Draa-Tafilalet region in the Kingdom of Morocco.

\$114M

In cash at quarter end

Strengthened Balance Sheet through Equity Raise and Healthy Cash Generation

Zgounder Silver Mine / Expanded Operations

Outlook / Committed to Our 2025 Guidance

- We expect milling throughput to remain strong with recoveries continuing to exceed feasibility study rate
- Silver cash cost per ounce trended above our guidance range in H1, reflecting the ramp-up stage. We expect an improvement in H2 (vs H1) as we implement targeted measures to enhance grades and reduce costs.
- We remain fully committed to achieving our 2025 objectives.

2025 Guidance	
Silver production (Moz Ag)	5.0 – 5.3
Silver cash cost (\$/oz)	15.00 – 17.50
Recovery (%)	84 – 88
Average grade processed (g/t Ag)	170 – 200
Exploration and development for all Moroccan projects (\$ million)	25 – 30

- Foreign currency assumptions used: US\$/C\$1.40; and US\$/MAD 10.10.
- The Corporation's primary focus for 2025 is ramping up the plant and mining to steady state of 3,000tpd while rationalizing costs.

Zgounder Silver Mine (10,000m-15,000m)

- Discovery of a new mineralized zone north of the current open-pit
- Drilling results has outlined significant down-plunge extensions through thick high-grade interceptions and confirmed the continuity of high-grade mineralization beyond the current resource boundary

Zgounder Regional (10,000m)

- Drilling at Far East permits commenced towards the end of Q2, targeting several geochemically and structurally defined anomalies.
- Detailed geological mapping and prospecting are being carried out on both Tournchal and Zgounder Far East permits. Several drill targets have been identified supporting future phases of the 2025 drill program.
- Zgounder Far-East exploration drill program has been completed with results pending

Discovery of a new mineralized zone located north of the current open-pit¹

Drilling confirmed mineralization **at depth at the granite contact** outside of the current resource boundary.

Recent Drilling Highlights²

**2,425 g/t Ag
over 17m,
including 6,311 g/t Ag
over 5.0m**

**1,356 g/t Ag
over 20.0m,
including 1,799 g/t
Ag over 14.0m**

**5,696 g/t Ag
over 2.5m**

**3,279 g/t Ag
over 8.0m,
including 6,425 g/t Ag
over 4.0m**

**1,640 g/t Ag
over 12.6m,
including 10,104 g/t
Ag over 1.0m and
2,747 g/t Ag over 7.0m**

1. Refer to Aya's news release dated September 9, 2025.

2. Refer to Aya's June 26, 2025, May 21, 2025 January 7, 2025, and July 2, 2024 news releases.

Zgounder Exploration¹

- Hole ZG-25-156 and ZG-25-159 (pending) have identified a new mineralized body north of the open-pit
- Hole ZG-25-156 returned 167 g/t Ag over 2.0m included in a much broader altered and silver anomalous interval of 19.0m,
 - ZG-25-159 also shows a large 20.0m corridor of alteration containing spots of native silver (results pending).
- Significant potential for new mineralization north of the current open pit, at depth, near the granite contact. Additional follow-up holes are planned in the area through the remainder of 2025.

Figure: NW-SE Section of Zgounder with Hole ZG-25-156

¹ Refer to Aya Gold & Silver's September 9, 2025.

Zgounder Regional¹

- Six new licenses (totalling 48km²) acquired; significantly increases the prospectivity of the Zgounder Regional Project.
- Drill test surrounding permits – some near Zgounder mine regional targets
- Grab sample results have identified some high-grade grab Ag-Cu, and Au, along with many precious metal anomalies, indicating a strong mineralization potential within 20km from the Zgounder deposit
- Ag-Cu anomalies in the northern and eastern regions are associated with intermediate to mafic units, while Au anomalies in the southwest correlate with strongly altered rocks
- New targets in the Zgounder Far East permits will be drill tested in the coming months (H2 2025).

Tirzzit²

- Historical artisanal copper mine offering near-surface silver and copper mineralization potential
- Mineralization of historical deposit remains open in all 3 directions
- Collection of 5 exploration permits and two mining licenses (67.7km²) including the historical Tirzzit Copper Mine on Morocco's Anti-Atlas range, 25 km south of Zgounder
- Airborne regional MobileMT survey completed in H1-2024

¹ Refer to Aya Gold & Silver's June 26, 2025 and May 21, 2025.

² Refer to Aya Gold & Silver's June 29, 2023 and August 17, 2023 press releases.

Figure: Surface Map of Zgounder Far East with Simplified Geology and Ag Grab Samples

Figure: Surface Map of Zgounder Far East with Simplified Geology and Cu Grab Samples

Figure: Surface Map of Zgounder Far East with Simplified Geology and Au Grab Samples

➤ **Grab sample results have identified some high-grade grab Ag-Cu, and Au, along with many precious metal anomalies, indicating a strong mineralization potential within 20km of the Zgounder deposit.**

Boumadine (100,000m – 140,000m)

- **102,979m** of drilling completed YTD¹
- Results from the Main Trend, Tizi, and Imariren zones confirmed mineralization continuity and extended known strike lengths
- New drilling results supporting the **discovery of new gold zone at Asirem Zone**, west of the Boumadine Main Trend in Morocco, highlighting the zone's emergence as a promising new target
 - BOU-DD25-629 intercepted 1.52 g/t Au over 4.3m, 1.49 g/t Au over 1.0m and 1.95 g/t over 1.0m
 - BOU-DD25-632 intercepted 4.53 g/t Au over 1.0m, 2.05 g/t Au over 1.0m, 1.82 g/t Au over 1.0m, 1.47 g/t Au over 1.0m and 0.98 g/t Au over 2.0m
 - Grab samples up to 12.20 g/t Au and 4.1% copper ("Cu") north of Asirem trend

Boumadine / 2025 Updated MRE (Ag, Au, Cu, Pb, Zn)

Highlights¹

Indicated resources of 5.2Mt at 91 g/t Ag, 2.78 g/t Au, 2.8% Zn and 0.85% Pb containing an estimated **15.1 Moz** of Ag, 449 koz of Au, 145 kt of Zn and 44 kt of Pb, **representing 74.4 Moz AgEq, a 120% increase over April 2024 MRE.**

Inferred resources of 29.2Mt at 82g/t Ag, 2.63 g/t Au, 2.11% Zn and 0.82% Pb containing an estimated **76.8 Moz** of Ag, 2.4 Moz of Au, 615 kt of Zn and 237 kt of Pb, **representing 378 Moz AgEq, an 19% increase over the April 2024 MRE.**

49% of the inferred mineral resource is pit-constrained, and 51% is underground

Rapid resource delineation with **+138 km** drilled in < 3 years

Potential to **expand the deposit in all directions**

1. Refer to Aya Gold & Silver's February 24, 2025 press release.

Potential to increase deposit in **all** directions

1. As at February 24, 2025

2. Refer to Aya Gold & Silver's February 24, 2025 press release.

3. The mineral resource has been estimated based on an Ag price of US\$24/oz with a process recovery of 89%, an Au price of US\$2,200/oz with a process recovery of 85%, a Zn price of US\$1.20/lb with a process recovery of 72%, a Pb price of US\$1.00/lb with a process recovery of 85%, and a Cu price of US\$4.00/lb with a process recovery of 75%.

Boumadine (Au, Ag, Pb, Zn) / Development

- Acquired 2 new mining licenses totaling **25.1km²** in the Boumadine area → expanded the Boumadine exploration footprint to 339.3km²*

*Refer to Aya Gold & Silver's Sept 15, 2025 press release.

Drilling¹

- 102,979m drill program completed YTD¹
- Drilling confirms discovery of new high-grade gold zone at Asirem (8.0km), and returns high-grade results from Boumadine Main Trend (5.4km) and Tizi Zone (2.0km)

Next Steps¹

- Potential exists to expand the Boumadine Main Trend, the Tizi Zone, and the Imariren Zone; the three trends remain open in all directions
- Follow up drilling will take place at the newly discovered 8km Asirem trend
- Half of the drilling is focused along the Main Trend, Imariren and Tizi to continue extending the known mineralization trend along strike and at depth and to infill known areas advancing the project towards a PEA. The remaining 50% will focus on greenfield exploration.

Mx2 Mining Transaction / Unlocking Value from Non-Core Gold Projects

Creation of Mx2 Mining, a North African-dedicated gold growth company backed by Aya¹

Amizmiz Gold Project (Morocco):

- Mx2 acquired 100% interest in Amizmiz
- Historic resource of 342,000 oz at 12.98 g/t Au
- 2,800m drill program to begin in 2025

Experienced Aya team and board, and senior mining executives from Red Back Mining, Orca Gold, and Montage Gold.

- Mx2 completed a brokered private placement, raising C\$16M²
- Aya contributed C\$1M²

Aya received \$10M in share consideration from Mx2 through the spinout, now owns 42.3% of Mx2:

- Aya to be the largest shareholder of Mx2, focused on untapping the potential of Amizmiz

Benoit La Salle and Ugo Landry-Tolszczuk appointed to the Mx2 Board of Directors

Completion of Transaction announced April 16, 2025³

1. Refer to Aya's September 12, 2024 press release.

2. Refer to Mx2 Mining's October 1, 2024 and November 20, 2024 press releases.

3. Refer to Aya's news release dated April 16, 2025.

Estimated total GHG emissions for the Zgounder Silver Mine

1. Compared to base year of 2021. Objective does not include Scope 3 emissions.

Achieved in the last three years since arrival of new management team

38% Women board members

88% Director independence

15% Board & management holdings
(As of Dec. 31, 2024)

Alignment of executive pay to performance and shareholder interests

Implementation of high **governance standards** & alignment of executive remuneration with performance and shareholders

Increased transparency of ESG disclosure in support of the below frameworks:

Low-Carbon Strategy and Environmental Commitment

Priorities: reduce energy and water use, biodiversity. Achieve Near-zero Scope 2 emissions in 2025.

65%
Water recycled

Ongoing
Global Industry Standard on Tailings Management

7,671t
CO₂e emissions avoided in 2024

88%¹
Reduction in Scope 2 emissions targeted in 2025

Embedding a Health and Safety Culture

Priorities: zero fatalities, lower LTIFR and TRIFR, operational surface fire brigade team.

Ongoing
Best practices for risk management

0 fatalities
Reported in 2024

12,907 hours
of H&S training in 2024

Supporting our Social License

Priorities: increase female headcount, reduce employment turnover and implement comms and awareness programs on Aya policies.

40%
Local workforce

99%
National workforce

11%
female employees

15,430
training hours provided to Aya workforce

1. Target reduction compared to 2021, Aya’s base year for calculations.

2025 Catalysts

- | | | |
|---|-------------------------------------|---------|
| ➤ Commenced 2025 drill program | ☒ | 2025 |
| ➤ Commenced Boumadine PEA | ☒ | 2025 |
| ➤ Reached 3,000tpd processing capacity at Zgounder
<i>ramping up to steady state</i> | ☒ | 2025 |
| ➤ Provide mid-year update on Boumadine metallurgy and PEA | ☐ | H2 2025 |
| ➤ Publish updated Zgounder technical report | ☐ | Q4 2025 |
